Handbook of Research on Children's and Young Adult Literature Shelby Wolf,Karen Coats,Patricia Enciso,Christine Jenkins,2011-04-27 This multidisciplinary handbook pulls together in one volume the research on children s and young adult literature which is currently scattered across three intersecting disciplines education English and library and information science **Children's Book Prizes** Ruth Allen,2019-01-22 First published in 1998 this book is the first comprehensive survey of the awards made to

children's books in the English speaking world. The Volume covers nearly forty different prizes including well known and established ones such as the Newbury Award prizes instigated by the commercial sector such as the Smarties Prize as well as nationally sponsored awards and prizes for illustrators. Detailed lists are provided of the winning titles and where appropriate the runners up in each year that the award has been given. Ruth Allen also presents some fascinating and often entertaining insights into the motivations behind awards and how they are viewed by authors, illustrators, publishers, librarians, booksellers and potential purchasers. The various criteria applied by judges of these awards are also examined with an assessment of whether they have always achieved the right result. This Volume is both a useful guide for adults wishing to buy good books for children and an important tool for those researching the history of the children's book industry.

Educational Research Norman E. Wallen, Jack R. Fraenkel, 2013-03-07 Educational Research: A Guide to the Process is a different kind of research text. It emphasizes the process of research that is what researchers actually do as they go about designing and carrying out their research activities. Rather than passively reading about research operations, it promotes content mastery by using a three step pedagogical model that involves a manageable chunk of text, a comprehension or application exercise, and author feedback on the exercise. The text contains approximately 150 of these exercise/feedback units. The second edition has been thoroughly updated, expanded from 15 to 20 chapters, and reorganized into two parts. Part I covers basic aspects of the research process, provides an example of a student research proposal, and shows how to evaluate a research report. Part II provides a separate chapter for each research methodology, including two chapters on qualitative research. Other noteworthy changes include more annotated studies and more visual illustrations of statistical and research methods.

Child Study, 1930 *First Selection of Five Hundred Children's Books*, 1913 *Teaching Geography Creatively* Stephen Scoffham, 2013-01-17 This lively, thought-provoking edited collection is packed full of practical ideas for teachers looking to foster a creative primary classroom. It will also make its readers reflect on how creativity and geography intersect in children's lives and why creativity is vital in sustaining all our futures. Professor Anna Craft, University of Exeter and The Open University UK. *Teaching Geography Creatively* offers an innovative approach to geography education in the primary classroom and is crammed full of practical approaches for bringing the teaching of geography to life. With ideas for exploring physical geography, human geography and environmental issues, it is a stimulating and enjoyable source of inspiration for all training and experienced teachers. Underpinned by the latest research and theory and with contemporary cutting edge practice at the forefront, expert authors from schools and universities explore the inter-relationship between creativity and learning and how creativity can enhance pupils' motivation, self-image and well-being. The importance of equipping children

for a rapidly changing environment and the need to place learning in a values context are also stressed. Imaginative ideas for teaching in geography include games and starter activities as entry points for creative learning learning about the environment and sustainability through problem solving linking geography with art music and mathematics using the local area for map work history and ICT new approaches to fieldwork playful learning and outdoor work exploring messy learning and real world events. With an emphasis on promoting creativity as a key element to developing young children's knowledge understanding and enjoyment Teaching Geography Creatively offers a range of practical strategies to enable teachers to take a fresh approach to geography teaching
