The Silent Power Japans Identity And World Role:

Rethinking Japan's Identity and International Role Susanne Klien, 2018-10-24 This paper presents a study of Japan's international role with a special focus on its historical evolution To that end the following three pillars lay the necessary theoretical foundations one the notions of historical and political identity and a discussion of the ambivalent shapes they have taken in Japan two the regional context an examination of Japan's situation with respect to Asian history as a whole and finally the civilian power concept as defined by Hanns W Maull The silent Power, 1976 The Silent Power Nihon Kokusai Kōryū Sentā, 1976 Handbook of Intercultural Training Dan Landis, Richard W. Brislin, 2013-10-22 Handbook of Intercultural Training Volume III Area Studies in Intercultural Training deals with information about the countries in which people will be living and working where trainers want new and better country specific information that can be incorporated into their programs This volume contains two parts wherein the first part deals with training in educational institutions where existing programs are examined An intercultural competence in bilingual teacher training programs is presented and the intercultural communications skills imparted to trainers teachers are examined Also addressed are methods to facilitate education on cross cultural matters to college level students To put cross cultural relations in perspective the topic of American and foreign students in the United States in a university context is discussed and its implications for theory future research and applied intercultural programming are further examined Part II is concerned with area studies and covers Sub Sahara Africa Islamic countries such as Iran Americans in Australia Oceania India Japan Canada and the American retiree abroad The inclusion of this section shows the types of content that can be included in the preparation of training programs Trainers and cross cultural workers foreign workers diplomats foreign students immigrants and even transients working and living in a different culture will find this volume a wealthy source of information **The China Problem in Postwar Japan** Robert Hoppens, 2015-01-29 The 1970s were a period of dramatic change in relations between Japan and the People's Republic of China PRC The two countries established diplomatic relations for the first time forged close economic ties and reached political agreements that still guide and constrain relations today This book delivers a history of this foundational period in Sino Japanese relations It presents an up to date diplomatic history of the relationship but also goes beyond this to argue that Japan's relations with China must be understood in the context of a larger China problem that was inseparable from a domestic contest to define Japanese national identity The China Problem in Postwar Japan challenges some common assertions or assumptions about the role of Japanese national identity in postwar Sino Japanese relations showing how the history of Japanese relations with China in the 1970s is shaped by the strength of Japanese national identity not its weakness *Migrants and Identity in Japan and Brazil* Daniela de Carvalho, 2003-08-27 Economic and social difficulties at the beginning of the 20th century caused many Japanese to emigrate to Brazil The situation was reversed in the 1980s as a result of economic downturn in Brazil and labour shortages in Japan This book examines the construction and reconstruction of the

ethnic identities of people of Japanese descent firstly in the process of emigration to Brazil up to the 1980s and secondly in the process of return migration to Japan in the 1990s The closed nature of Japan s social history means that the effect of return migration can clearly be seen Japan is to some extent a unique sociological specimen owing to the absence of any tradition of receiving immigrants This book is first of all about migration but also covers the important related issues of ethnic identity and the construction of ethnic communities It addresses the issues from the dual perspective of Japan and Brazil The findings suggest that mutual contact has led neither to a state of conflict nor to one of peaceful coexistence but rather to an assertion of difference It is argued that the Nikkeijin consent strategically to the social definitions imposed upon their identities and that the issue of the Nikkeijin presence is closely related to the emerging diversity of Japanese society

Inside the Bataan Death March Kevin C. Murphy, 2014-10-27 For two weeks during the spring of 1942 the Bataan Death March one of the most widely condemned atrocities of World War II unfolded The prevailing interpretation of this event is simple American prisoners of war suffered cruel treatment at the hands of their Japanese captors while Filipinos sympathetic to the Americans looked on Most survivors of the march wrote about their experiences decades after the war and a number of factors distorted their accounts The crucial aspect of memory is central to this study how it is constructed by whom and for what purpose This book questions the prevailing interpretation reconsiders the actions of all three groups in their cultural contexts and suggests a far greater complexity Among the conclusions is that violence on the march was largely the result of a clash of cultures undisciplined individualistic Americans encountered Japanese who valued order and form while Filipinos were active even ambitious participants in the drama *Identity, Trust, and Reconciliation in East Asia* Kevin P Clements, 2017-10-10 This edited collection explores how East Asia s painful history continues to haunt the relationships between its countries and peoples Through a largely social psychological and constructivist lens the authors examine the ways in which historical memory and unmet identity needs generates mutual suspicion xenophobic nationalism and tensions in the bilateral and trilateral relationships within the region This text not only addresses some of the domestic drivers of Japanese Chinese and South Korean foreign policy and the implications of increasingly autocratic rule in all three countries but also analyses the way in which new security mechanisms and processes advancing trust confidence and reconciliation can replace those generating mistrust antagonism and insecurity **The International Speech-making of**
