Reno's Big Gamble Alicia Barber, 2023-05-19 When Pittsburgh socialite Laura Corey rolled into Reno Nevada in 1905 for a six month

stay her goal was a divorce from the president of U S Steel Her visit also provided a provocative glimpse into the city s future With its rugged landscape and rough edged culture Reno had little to offer early twentieth century visitors besides the gambling and prostitution that had remained unregulated since Nevada s silver mining heyday But the possibility of easy divorce attracted national media attention East Coast notables and Hollywood stars and soon the Reno Cure was all the rage Almost overnight Reno was on the map Alicia Barber traces the transformation of Reno s reputation from backward railroad town to the nationally known Sin Central as Garrison Keillor observed a place where you could see things that you wouldn t want to see in your own hometown Chronicling the city s changing fortunes from the days of the Comstock Lode she describes how city leaders came to embrace an identity as The Biggest Little City in the World and transform their town into a lively tourist mecca Focusing on the evolution of urban reputation Barber carefully distinguishes between the image that a city s promoters hope to manufacture and the impression that outsiders actually have Interweaving aspects of urban identity she shows how sense of place promoted image and civic reputation intermingled and influenced each other and how they in turn shaped the urban environment Quickie divorces notwithstanding Reno s primary growth engine was gambling modern casinos came to dominate the downtown landscape When mainstream America balked Reno countered by advertising tax freedom and natural splendor to attract new residents But by the mid seventies unchecked growth and competition from Las Vegas had initiated a downslide that persisted until a carefully crafted series of special events and the rise of recreational tourism began to attract new breeds of tourists Barber s engaging story portrays Reno as more than a second string Las Vegas having pioneered most of the attractions gaming and prizefighting divorces and weddings that made the larger city famous As Reno continues to remold itself to weather the shifting winds of tourism and growth Barber s book provides a cautionary tale for other cities hoping to ride the latest consumer trends *Cities, Sagebrush, and Solitude* Dennis R. Judd,Stephanie L. Witt,2015-03-16 *Cities Sagebrush and Solitude* explores the transformation of the largest desert in North America the Great Basin into America s last urban frontier In recent decades Las Vegas Reno Salt Lake City and Boise have become the anchors for sprawling metropolitan regions This population explosion has been fueled by the maturing of Las Vegas as the nation s entertainment capital the rise of Reno as a magnet for multitudes of California expatriates the development of Salt Lake City s urban corridor along the Wasatch Range and the growth of Boise s celebrated high tech economy and hip urban culture The blooming of cities in a fragile desert region poses a host of environmental challenges The policies required to manage their impact however often collide with an entrenched political culture that has long resisted cooperative or governmental effort The alchemical mixture of three ingredients cities aridity and a libertarian political outlook makes the Great Basin a compelling place to study This book addresses a pressing question are large cities ultimately sustainable in such a fragile environment *Nevada Historical Society Quarterly* Nevada Historical Society,2006 Jews in Nevada John P. Marschall,2011-03-28 Jews have always been one of Nevada s most active and influential ethnic minorities

They were among the state's earliest Euro American settlers and from the beginning they have been involved in every area of the state's life as businessmen agrarians scholars educators artists politicians and civic professional and religious leaders

Jews in Nevada is an engaging multilayered chronicle of their lives and contributions to the state Here are absorbing accounts of individuals and families who helped to settle and develop the state as well as thoughtful analyses of larger issues such as the reasons Jews came to Nevada in the first place how they created homes and interacted with non Jews and how they preserved their religious and cultural traditions as a small minority in a sparsely populated region

The Regulation of Boxing Robert G. Rodriguez, 2009-03-23 This first nationwide study of boxing regulations in the United States offers an historical overview of the subject from the earliest attempts at regulating the sport to present day legislation that may create a national boxing commission It examines the disparity of regulations among states as well as the reasons for some of these differences The work features interviews with boxing officials analysts and boxers and includes the results of a national survey of state athletic commission personnel In depth case studies of boxing regulations in Nevada and Kansas provide a close look at different states methods and Argentina's centralized system of regulation is presented as a comparison to the U S approach

The Humboldt Project Robert Autabee, 1993

The Labor of Luck Jeff Sallaz, 2009-10-02 A rich and compelling comparative study of a rapidly growing and little studied global industry Sallaz offers an extremely clever and provocative account that is sure to stimulate a lot of debate among scholars Ruth Milkman University of California Los Angeles and author of *L A Story Immigrant Workers and the Future of the U S Labor Movement* A tremendous tour de force It is astonishing in its scope ranging effortlessly from the minutiae of shop floor life to the heights of comparative national political and economic history from breezily personal and often amusing to a brilliant reconstruction of social theory Steven Henry Lopez Ohio State University and author of *Reorganizing the Rust Belt An Inside Study of the American Labor Movement*

Nevada's Environmental Legacy James W. Hulse, 2009-02-28 Nevada's relatively brief history it became a state in 1864 has been largely a story of the exploitation of its natural resources Mining has torn down mountains and poisoned streams and groundwater Uncontrolled grazing by vast herds of sheep and cattle has denuded grasslands and left them prey to the invasion of noxious plant species and vulnerable to wildfire Clear cut logging practices have changed the composition of forests and induced serious soil erosion More recently military testing including hundreds of atomic blasts to determine the efficacy of nuclear weapons has irreversibly polluted expanses of fragile desert landscape And rampant development throughout the state over the past four decades along with the public's growing demand for recreational facilities has placed intolerable demands on the arid state's limited water resources and threatened the survival of numerous rare plant and animal species Veteran historian and Nevada native James W Hulse considers the state's complex environmental history as a series of Faustian bargains between the state's need for economic development and the industries government agencies and individuals that have exploited Nevada's natural resources with little concern for the long term consequences of their

activities His survey covers all these issues and examines public attitudes about the environment and the role of federal and state agencies in creating interpreting and enforcing environmental policies American Book Publishing Record ,1998
