The Ship Steam Tramps And Cargo Liners:

The Ship Robin Craig, National Maritime Museum, 1980 *The Ship* Basil Greenhill, 1980 **Steam Tramps and Cargo Liners, 1850-1950** Robin Craig, 1980 *A History of British Tramp Shipping, 1870-1914 (Volume 1)* Gordon H. Boyce, 2024-03-25 Winner of the Canadian Nautical Research Society's Keith Matthews Award for Best Book 2024 Celebrated in the novels of Joseph Conrad and vintage films tramp ships the precursor of bulk carriers are not well understood today Yet these vessels transported in bulk essential minerals and ores grains timber and other commodities and played a vital role in creating the modern global economy While the histories of some individual tramp firms have been written this book uses personal correspondence and surviving company records to chart the development of the entire industry the largest in the world during a period of transformational technical change Who were the bold risk takers who founded tramp firms How did they mobilise the resources needed to enter this dynamic sector build immense companies and accumulate vast fortunes Why did others fail This study reveals how executives learned the art of managing tramps and developed strategic networking skills Tramp shipping resonates with many of today's high growth industries it was an information intensive high stress operation that required rapid sometimes instinctive decision making within a turbulent market Building business networks was supported by a distinctive culture that streamlined communication This innovative study places information knowledge learning culture and communication at the centre of the analysis in order to transport readers into the minds of those fascinating entrepreneurs who helped build the modern world **The British Motor Ship**, 1926 *The Evolution and Significance of the Powered Bulk Carrier* Roy Fenton, 2023-04-03 The book is the first to detail the 170 year evolution of the powered bulk carriers which continue to have a major role in the world's trades and economies Their design and technological development is traced from the screw colliers of the 1850s which revolutionised the British coastal coal trade The same engineering principles were applied to produce ocean going steam and later motor tramps By the end of the 19th century the capabilities and economies of these black freighters had captured from the sailing ship much of the world's trade in bulk commodities In the second half of the 20th century the tramps in turn evolved into multi purpose dry bulk carriers These workhorses of the sea transport commodities including metallic ores grain coal timber and other minerals Quantities of up to 400 000 tons are carried in the largest specialised ore carriers In a parallel development applying the same technical principles produced smaller yet efficient steam and later motor coasters which came to dominate short sea shipping The book concludes with a discussion of how the economies of transportation provided by bulk carriers have had profound effects on industrialisation globalisation and the world's economy and discusses the environmental impact of these ships *The Growth and Dissolution of a Large- Scale Business Enterprise* Gordon H. Boyce, 2017-10-18 This book is an in depth case study of the Furness Withy and Co Shipping Group which operated both tramp and liner services and was one of the five major British shipping groups of the early twentieth century It demonstrates how British shipowners of this period generated

success by exploring Christopher Furness career in relation to the social political and cultural currents during a time of tremendous shipping growth in Britain and the establishment of some of the largest shipping firms in the world It approaches the study from three angles The first analyses how the Furness Group expanded its shipping activities and became involved with the industrial sector The second illustrates the organisational and financial structure of the enterprise Finally the Group s leadership and entrepreneurship is scrutinised and placed within the wider context of twentieth century British business The case study begins in 1870 with an introduction explaining how Christopher Furness came to join the family company Thomas Furness and Co in order develop services expand and instigate the changes and mergers that brought the Furness Group into existence There are thirteen chronologically presented chapters a bibliography and seven appendices of data including an ownership timeline tonnage statistics acquisitions a list of maritime associates and a timeline of Christopher Furness life The book concludes in 1919 with the de merging of the Furness Group s shipping and industrial holdings the resignation of the Furness family from the company s board the sale of their shares and the move into managing the firm s industrial interests

The Impact of Technological Change John Armstrong,David M. Williams,2017-10-18 This book presents an in depth study of the impact of the steamship on Britain during its first forty years roughly between 1810 and 1850 It relates the early steamship to several industrial themes including diffusion construction modernisation the role of government particularly the difficult attempt to align laissez faire politics with the greater need for public safety measures due to technological advance business and finance plus public reaction and tourism The aim is to establish the significance of the steamship as a conduit of modernisation and societal change It consists of a foreword introduction and fourteen chapters devoted to specific themes structured to ensure each chapters build on the preceding chapter s progress Collectively they demonstrate that the development of both experience and enterprise with steam power both gained and refined during this period made the mid century expansion of steamship technology across Britain possible Ultimately it establishes that steamship services began to adapt to oceanic routes steam began to integrate into the world economy and the age of sail began to draw to a close

The British Motor Ship ,1946-04 The Times Shipping Number ,1913 **Zimmermann on Ocean Shipping** Erich Walter Zimmermann,1923 **The Survey** ,1912 **American Shipping** ,1922

Shipbuilding and Shipping Record ,1929 **Research in Progress** North Carolina State University. Graduate School,1929 **Shipbuilding & Shipping Record** ,1922 The St. Lawrence Navigation and Power Project Harold Glenn Moulton,Charles Stillman Morgan,Adah L. Lee,1929 *Pacific Ports Manual* ,1918 **Frank Waterhouse & Company's Pacific Ports** Welford Beaton,1918 **The Economist** ,1901

As recognized, adventure as competently as experience practically lesson, amusement, as capably as bargain can be gotten by just checking out a book **The Ship Steam Tramps And Cargo Liners** after that it is not directly done, you could undertake even more a propos this life, not far off from the world.

We provide you this proper as competently as simple pretentiousness to get those all. We manage to pay for The Ship Steam Tramps And Cargo Liners and numerous book collections from fictions to scientific research in any way. among them is this The Ship Steam Tramps And Cargo Liners that can be your partner.
