**The Glass Room** Simon Mawer, 2009-08-20 SHORTLISTED FOR THE BOOKER PRIZE A passionately detailed portrait of individuals struggling to snatch order and happiness from frightening irrational times Sunday Telegraph Mawer embeds provocative aesthetic and moral issues in a war torn adventure story that s eerily erotic and tremendously exciting a gorgeous novel Washington Post Cool Balanced Modern The precisions of science the wild variance of lust the catharsis of confession and the fear of failure these are things that happen in the Glass Room High on a Czechoslovak hill the Landauer House shines as a wonder of steel and glass and onyx built specially for newlyweds Viktor and Liesel Landauer a Jew married to a gentile But the radiant honesty of 1930 that the house with its unique Glass Room seems to engender quickly tarnishes as the storm clouds of WW2 gather and eventually the family must flee accompanied by Viktor s lover and her child But the house s story is far from over and as it passes from hand to hand from Czech to Russian both the best and the worst of the history of Eastern Europe becomes somehow embodied and perhaps emboldened within the beautiful and austere surfaces and planes so carefully designed until events become full circle The inspiration for the major motion picture *The Affair* available on demand

**The Glass Room by Simon Mawer** Melanie Joosten, 2012 **Unemployment Compensation Interpretation Service** , 1948 **The Critical Villager** Eric Dudley, 2002-03-11 When aid to the Third World actually works it is usually on such a small scale that it makes little impact on the world s problems Can demands for generalizable actions be reconciled with location specific solutions The Critical Villager considers how community based technical aid can be made more effective and sustainable Calling for development workers policy makers and researchers to put themselves in the place of the intended beneficiaries of aid it suggests concrete principles for action and research It argues that participatory research and transfer of technology should not be regarded as rival models for development but rather as complementary components in a single process of effective aid **Unemployment Compensation Interpretation Service**
