## **The Gatekeepers Inside The Admissions Process Of A Premier College:**

The Gatekeepers Jacques Steinberg,2003-07-29 In the fall of 1999 New York Times education reporter Jacques Steinberg was given an unprecedented opportunity to observe the admissions process at prestigious Wesleyan University Over the course of nearly a year Steinberg accompanied admissions officer Ralph Figueroa on a tour to assess and recruit the most promising students in the country The Gatekeepers follows a diverse group of prospective students as they compete for places in the nation s most elite colleges The first book to reveal the college admission process in such behind the scenes detail The Gatekeepers will be required reading for every parent of a high school age child and for every student facing the arduous and anxious task of applying to college The Gatekeepers provides the deep insight that is missing from the myriad how to books on admissions that try to identify the formula for getting into the best colleges I really didn t want the book to end The New York Times Vsesojuznaja naucno techniceskaja Konferencija po elektrochimiceskoj technologii ; 8 ,1977

The College Conversation Eric J. Furda,Jacques Steinberg,2021-09-21 From an Ivy League dean and a college admissions expert a guide to help parents support their children as they navigate their way to college The College Conversation is a comprehensive resource for mapping the path through the college application process that provides practical advice and reassurance to keep both anxious parents and confused children sane and grounded Rather than adding to the existing canon of How to Get In college guides or rankings Eric Furda and Jacques Steinberg provide a step by step approach to having the tough conversations on this topic with less stress and more success The book is organized around key discussions and themes that trace the chronological arc of admissions and financial aid beginning before the assembly of a list of potential colleges and continuing through the receipt of decisions with a final section that includes advice on the first year of college The topics include preliminary conversations about the search and specifically how parents can think about their children s interests and what kind of college would best suit them choosing a college based on its curriculum culture and community writing the most effective essays assessing acceptances including considerations of finances and aid and making the transition from high school to college life The College Conversation will provide parents students and counselors with the credible level headed information often missing in this process as well as a much needed dash of perspective borne of experience The Structure of Schooling Richard Arum,Irenee R. Beattie,Karly Ford,2015 This comprehensive reader in the sociology of education examines important topics and exposes students to examples of sociological research on schools Drawing from classic and contemporary scholarship the editors have chosen readings that examine current issues and reflect diverse theoretical approaches to studying the effects of schooling on individuals and society The Marketplace of Ideas Louis Menand,2010-12-06 Crisp and illuminating well worth reading Wall Street Journal The publication of The Marketplace of

Ideas has precipitated a lively debate about the future of the American university system what makes it so hard for colleges to decide which subjects are required Why are so many academics against the concept of interdisciplinary studies From his position at the heart of academe Harvard professor Louis Menand thinks he s found the answer Despite the vast social changes and technological advancements that have revolutionized the society at large general principles of scholarly organization curriculum and philosophy have remained remarkably static Sparking a long overdue debate about the future of American education The Marketplace of Ideas argues that twenty first century professors and students are essentially trying to function in a nineteenth century system and that the resulting conflict threatens to overshadow the basic pursuit of knowledge and truth    The New England Small College Athletic Conference Dan Covell,2022-07-01 The New England Small College Athletic Conference has won glowing appraisals in the sporting press since its founding in 1971 Established to strengthen intercollegiate sports in harmony with the high academic standards of its members 11 prestigious liberal arts colleges the NESCAC is committed to equity and inclusion in athletic programs and to providing only need based financial aid The Conference s reputation attracts many gifted student athletes Drawing extensively on campus archives media reports and interviews this book compares the NESCAC s lofty strategy to reality with a focus on recruiting admissions financial aid and diversity goals
