

The German Workers And The Nazis

Max Hershel Kele

The German Workers And The Nazis:

The German Workers and the Nazis Francis Ludwig Carsten, 1995 The active opposition consisted of Communists Social Democrats and Independent Socialists another comparatively small minority the members of which suffered cruel persecution Partly based on the author's own experience *The German Workers and the Nazis* combines an account of the German working class opposition to Hitler and the Nazis with a description of the workers daily problems and mood which ranged from support to total opposition during the 12 years of the Third Reich **Nazis and Workers: National Socialist Appeals to German Labor, 1919-1933** Max H. Kele, 1972 Monograph on the historical appeal of the Nazi political party in Germany to the working class during the period from 1919 to 1933 examines the propaganda social theories and socialist labour policies through which the party strove to win the workers support and comments on Nazi politicians political leadership nationalism etc Bibliography pp 219 to 237 and references *Nazi Ideology Before 1933* Barbara Miller Lane, Leila J. Rupp, 1978 **The Trial of the Germans** Eugene Davidson, 1997 Examines each of the defendants in the Nuremberg Trials during which charges were brought against members of Hitler's Third Reich for wartime atrocities and considers questions of whether the trials were necessary and just **Inside Nazi Germany** Detlev Peukert, 1987-01-01 This book by Detlev Peukert is a survey of the complex experiences and attitudes of ordinary German people between 1933 and 1945 It records how people lived during this period how they evaded or accepted the regime's demands and where they positioned themselves along the spectrum between the front lines side lines and firing lines **The Cambridge History of the Second World War: Volume 3, Total War: Economy, Society and Culture** Michael Geyer, Adam Tooze, 2015-04-23 The conflict that ended in 1945 is often described as a total war unprecedented in both scale and character Volume 3 of *The Cambridge History of the Second World War* adopts a transnational approach to offer a comprehensive and global analysis of the war as an economic social and cultural event Across twenty eight chapters and four key parts the volume addresses complex themes such as the political economy of industrial war the social practices of war the moral economy of war and peace and the repercussions of catastrophic destruction A team of nearly thirty leading historians together show how entire nations mobilized their economies and populations in the face of unimaginable violence and how they dealt with the subsequent losses that followed The volume concludes by considering the lasting impact of the conflict and the memory of war across different cultures of commemoration *Nazi Conspiracy and Aggression* United States. Office of Chief of Counsel for the Prosecution of Axis Criminality, 1946 *Nazism and German Society, 1933-1945* David Crew, 2013-05-13 The image of the Third Reich as a monolithic state presiding over the brainwashed fanatical masses retains a tenacious grip on the general public's imagination However a growing body of research on the social history of the Nazi years has revealed the variety and complexity of the relationships between the Nazi regime and the German people This volume makes this new research accessible to undergraduate and graduate students alike *Germans Into Nazis* Peter Fritzsche, 1998 Why did

ordinary Germans vote for Hitler In this dramatically plotted book organized around crucial turning points in 1914 1918 and 1933 Peter Fritzsche explains why the Nazis were so popular and what was behind the political choice made by the German people Rejecting the view that Germans voted for the Nazis simply because they hated the Jews or had been humiliated in World War I or had been ruined by the Great Depression Fritzsche makes the controversial argument that Nazism was part of a larger process of democratization and political invigoration that began with the outbreak of World War I The twenty year period beginning in 1914 was characterized by the steady advance of a broad populist revolution that was animated by war drew strength from the Revolution of 1918 menaced the Weimar Republic and finally culminated in the rise of the Nazis Better than anyone else the Nazis twisted together ideas from the political Left and Right crossing nationalism with social reform anti-Semitism with democracy fear of the future with hope for a new beginning This radical rebelliousness destroyed old authoritarian structures as much as it attacked liberal principles The outcome of this dramatic social revolution was a surprisingly popular regime that drew on public support to realize its horrible racial goals Within a generation Germans had grown increasingly self reliant and sovereign while intensely nationalistic and chauvinistic They had recast the nation but put it on the road to war and genocide

Employer and Worker Collective Action Andrew G. Lawrence, 2014-08-11 This book compares sources of worker and employer power in Germany South Africa and the United States in order to identify the sources of comparative US decline in union power and to more precisely analyze the nature of labor movement power It finds that this power is not confined to allied parties union confederations or strikes but rather consists of the capacity to autonomously translate power from one context to the next By combining their product labor market and labor law advantages through their dominant employers associations leading firms are able to impose constraints on labor's free collective bargaining regionally and nationally defeating employer interests that are more amenable to labor in the process Through an examination of these patterns of interest organization the book shows however that initial employer advantages prove to be contingent and unstable and that employers are forced to cede to more far reaching demands of increasingly organized workers

The Life and Death of Nazi Germany Robert C. Goldston, 1967 Examines basic problems of German history as reflected by the temper and times which permitted the rise and fall of Hitler and the Third Reich

Foreign Labor in Nazi Germany Edward L. Homze, 2015-12-08 During World War II Germany recruited over eight million foreign laborers from her allies the neutral countries and the occupied territories This book describes the inception organization and administration of the Nazi foreign labor program and its relationship to the over all economy and government Originally published in 1967 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published

by Princeton University Press since its founding in 1905 German Communism in the Nazi Era Horst Gunther Duhnke, 1964 The Program of the Party of Hitler: the National Socialist German Workers' Party and Its General Conceptions Gottfried Feder, 2019-05-19 Translated by E T C Dugdale Written by one of the original founding members of the NSDAP this booklet was the primary political document which underpinned the ideology and ideas of the future Nazi Party Dealing with every conceivable topic foreign policy internal policy property usury economics race Jews culture agriculture citizenship the military and much more this far reaching document provides a sweeping and comprehensive look into the dramatic worldview of National Socialism The main battle is one between two world theories represented by two essentially differing structures the spirit which has created and is creative and the unquiet grasping spirit The creative spirit deep rooted but superior to the rest of the world in spiritual experience is carried mainly by the Aryan race the grabbing spirit without roots anywhere aiming only at material things commercial is chiefly represented by the Jews National Socialism like anti Semitism regards the Jewish materialistic spirit as the chief cause of the evil it knows however that this greatest struggle in history must not stop short at merely destroying the Semitic spirit which is why the great program of National Socialism goes far beyond the anti Semitic desire to destroy for it offers a positive constructive picture showing how the National Socialist State of labor and achievement ought to appear when completed Once this high aim is achieved the National Socialist Party will dissolve automatically for National Socialism will then be the entire life of the whole German nation The NSDAP is not a political Party in the ordinary sense of the word but is that section of the nation which is confident and sure of the future which has gathered round strong and determined leaders to deliver Germany from shame and impotence abroad and from demoralization at home and to make her once again strong and respected abroad and morally and economically healthy at home Also includes the famous 25 Points and other notes and additions by Adolf Hitler Cover An exact reproduction of the 1932 original published by Franz Lehrer Verlag in Munich About the author Gottfried Feder 1883 1941 was a German engineer who was one of the four original founders of the NSDAP It was his speech on economics which initially attracted Adolf Hitler to the party and later he and Hitler drew up the 25 Points which became the abbreviated version of the party's policy Feder served the NSDAP in parliament and as under secretary at the ministry of economics until 1936 when he retired to become a professor at the Technische Hochschule in Berlin He died in 1941 Contents Historical Account of the Rise of the NSDAP Preface Official Party Manifesto regarding farming population and Agriculture The Policy of the NSDAP on Ownership of Landed Property The 25 Points The Basic Ideas The Program Requirements in Detail Policy of the State Economic Policy Financial Policy Social Policy Religion and Art Military and other Reforms What we do not desire Conclusion **NAZI CONSPIRACY AND AGGRESSION** ,1946 **The American Flint** ,1935 *The Asbestos Worker* ,1930 **Hitler's Jewish Soldiers** Bryan Mark Rigg, 2002 On the murderous road to racial purity Hitler encountered unexpected detours largely due to his own crazed views and inconsistent policies regarding Jewish identity After centuries of

Jewish assimilation and intermarriage in German society he discovered that eliminating Jews from the rest of the population was more difficult than he d anticipated As Bryan Rigg shows in this provocative new study nowhere was that heinous process more fraught with contradiction and confusion than in the German military Contrary to conventional views Rigg reveals that a startlingly large number of German military men were classified by the Nazis as Jews or partial Jews Mischlinge in the wake of racial laws first enacted in the mid 1930s Rigg demonstrates that the actual number was much higher than previously thought perhaps as many as 150 000 men including decorated veterans and high ranking officers even generals and admirals As Rigg fully documents for the first time a great many of these men did not even consider themselves Jewish and had embraced the military as a way of life and as devoted patriots eager to serve a revived German nation In turn they had been embraced by the Wehrmacht which prior to Hitler had given little thought to the race of these men but which was now forced to look deeply into the ancestry of its soldiers The process of investigation and removal however was marred by a highly inconsistent application of Nazi law Numerous exemptions were made in order to allow a soldier to stay within the ranks or to spare a soldier s parent spouse or other relative from incarceration or far worse Hitler s own signature can be found on many of these exemption orders But as the war dragged on Nazi politics came to trump military logic even in the face of the Wehrmacht s growing manpower needs closing legal loopholes and making it virtually impossible for these soldiers to escape the fate of millions of other victims of the Third Reich Based on a deep and wide ranging research in archival and secondary sources as well as extensive interviews with more than four hundred Mischlinge and their relatives Rigg s study breaks truly new ground in a crowded field and shows from yet another angle the extremely flawed dishonest demeaning and tragic essence of Hitler s rule *Nazi Appeals to the German Workers, 1919-1933* Max Hershel Kele,1969

Bulletin ,1927

Reviewing **The German Workers And The Nazis**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing.
