*Artificial Intelligence and the Two Singularities* Calum Chace, 2018-04-20 The science of AI was born a little over 60 years ago but for most of that time its achievements were modest In 2012 it experienced a big bang when a branch of statistics called Machine Learning and a sub branch called Deep Learning was applied to it Now machines have surpassed humans in image recognition and they are catching up with us at speech recognition and natural language processing Every day the media reports the launch of a new service a new product and a new demonstration powered by AI When will it end The surprising truth is the AI revolution has only just begun Artificial Intelligence and the Two Singularities argues that in the course of this century the exponential growth in the capability of AI is likely to bring about two singularities points at which conditions are so extreme that the normal rules break down The first is the economic singularity when machine skill reaches a level that renders many of us unemployable and requires an overhaul of our current economic and social systems The second is the technological singularity when machine intelligence reaches and then surpasses the cognitive abilities of an adult human relegating us to the second smartest species on the planet These singularities will present huge challenges but this book argues that we can meet these challenges and overcome them If we do the rewards could be almost unimaginable This book covers Recent developments in AI and its future potential The economic singularity and the technological singularity in depth The risks and opportunities presented by AI What actions we should take Artificial intelligence can turn out to be the best thing ever to happen to humanity making our future wonderful almost beyond imagination But only if we address head on the challenges that it will raise Calum Chace is a best selling author of fiction and non fiction books and articles focusing on the subject of artificial intelligence He is a regular speaker on artificial intelligence and related technologies and runs a blog on the subject at [www.pandorasbrain.com](http://www.pandorasbrain.com) Prior to becoming a full time writer and speaker he spent 30 years in business as a marketer a strategy consultant and a CEO He studied philosophy at Oxford University where

he discovered that the science fiction he had been reading since boyhood was simply philosophy in fancy dress     *The MX Book of New Sherlock Holmes Stories - Part XIII* David Marcum,2019-05-15 In 1881 a weary doctor wounded while serving in the military in Afghanistan returned to London only to be introduced to a most unusual young man who was already making a name for himself as the world s first consulting detective At that time the young man and his unique colleague were only just in their late twenties unaware of their legendary futures but they would go on to become two of the most famous and recognizable figures in the world Sherlock Holmes and Dr John H Watson In 1887 Holmes and Watson s first investigation as a team A Study in Scarlet was published The Sign of Four followed in 1890 and then in 1891 the world was electrified with the publication of The Adventures of Sherlock Holmes in the newly formed Strand Magazine and the world would never be the same Through the remainder of the nineteenth Century and all the way through the twentieth Holmes and Watson s fame would grow We re now well into the twenty first century yet the much loved duo are just as popular today if not even more so In 2015 The MX Book of New Sherlock Holmes Stories burst upon the scene featuring stories set within the canon s correct time period written by the very best of today s Sherlockian authors from around the world That first anthology spread over three huge volumes contained sixty three stories and was the largest collection of its kind assembled at the time Response was immediately and overwhelmingly positive and soon there were calls from fans for additional collections Over 150 contributors so far have joined together from around the world to produce well over three hundred new adventures to honour Sherlock Holmes the man described by Watson as the best and wisest whom I have ever known We now proudly present Parts XIII XIV and XV three volumes which break the record of the initial triple offering with an incredible sixty six new adventures featuring the eternal duo Watson and Holmes Part XIII in the popular MX series of new Sherlock Holmes stories features contributions from Derrick Belanger Mark Mower Brenda Seabrook David Marcum Robert Stapleton S F Bennett Edwin A Enstrom M J H Simmonds Andrew Bryant Tim Gambrell Tracy Revels Hugh Ashton Sean M Wright Marino C Alvarez Paul Hiscock Arthur Hall Kevin P Thornton Stephen Seitz Jim French David Friend Shane Simmons Peter Coe Verbica and Mark Wardecker with a Poem by Jacquelynn Morris and Forewords by Will Thomas Roger Johnson Melissa Grigsby Steve Emecz and David Marcum     Prisoner of Trebekistan Bob Harris,2006 In Prisoner of Trebekistan Harris chronicles his transformation from a struggling standup comic who repeatedly fails the Jeopardy audition test into an elite player competing against the show s most powerful brains     **U-X-L Graphic Novelists: A-H** Tom Pendergast,Sara Pendergast,2007 Profiles seventy five authors writing teams and illustrators of graphic novels and features an introduction to the genre discussion of manga brief accounts of graphic novel publishers a glossary and photographs     *The MX Book of New Sherlock Holmes Stories - Part XLIX* David Marcum,2025-05-22 Featuring Contributions by Deanna Baran David Marcum Tom Turley Brenda Seabrooke Tracy J Revels Stuart Douglas Roger Riccard Marcia Wilson Mark Mower DJ Tyrer Jane Rubino Hugh Ashton Gordon Linzner Will Murray Stephen Herczeg Shane Simmons Paul Metcalfe and a poem by Kevin Thornton 81 New Holmes
