Science Fiction, New Space Opera, and Neoliberal Globalism Jerome Winter, 2016-11-15 One of the few points critics and readers can agree upon when discussing the fiction popularly known as New Space Opera a recent subgenre movement of science fiction is its canny engagement with contemporary cultural politics in the age of globalisation This book avers that the complex political allegories of New Space Opera respond to the recent cultural phenomenon known as neoliberalism which entails the championing of the deregulation and privatisation of social services and programmes in the service of global free market expansion Providing close readings of the evolving New Space Opera canon and cultural histories and theoretical contexts of neoliberalism as a regnant ideology of our times this book conceptualises a means to appreciate this thriving movement of popular literature Blueprint, 2004 Litcomix Adam Geczy, Jonathan McBurnie, 2023-03-17

Drawing from literary critics like Georg Lukács and case studies from across the world of comics Litcomix develops a theoretical approach for reading graphic novels as literature Whether looking at Yoshihiro Tatsumi's groundbreaking manga graphic adaptations of Proust or Jack Kirby's Balzacian use of intertextuality this book offers fresh perspectives on the graphic novel Past The Fringe Josh Coker, 2025-05-01 She escaped one nightmare and flew straight into another Dash thought she'd finally put the chaos of the crimson forest behind her But when a mysterious specter starts hunting her through the depths of space survival becomes her only priority Now stranded in Fringe Space with a rogue cyborg stranger her nerdy alien friend and an annoying automaton Dash must navigate asteroid fields cryptic realmic lore and secrets buried deep within her past But the real danger isn't the treacherous expanse of the Fringe it's the dark force closing in A shadowy order of warriors long thought extinct has awakened and they'll stop at nothing to reclaim what Dash unknowingly possesses With reality itself unraveling and time running out she must decide uncover the truth about her past or risk becoming another lost soul in the void **Fifty Key Figures in Science Fiction** Mark Bould, Andrew Butler, Adam Roberts, Sherryll Vint, 2009-09-10 Fifty Key Figures in Science Fiction is a collection of engaging essays on some of the most significant figures who have shaped and defined the genre Diverse groups within the science fiction community are represented from novelists and film makers to comic book and television writers Important and influential names discussed include Octavia Butler
