Supreme Command Eliot A. Cohen, 2012-04-17 An excellent vividly written The Washington Post account of leadership in wartime that explores how four great democratic statesmen Abraham Lincoln Georges Clemenceau Winston Churchill and David Ben Gurion worked with the military leaders who served them during warfare The relationship between military leaders and political leaders has always been a complicated one especially in times of war When the chips are down who should run the show the politicians or the generals In *Supreme Command* Eliot A Cohen expertly argues that great statesmen do not turn their wars over to their generals and then stay out of their way Great statesmen make better generals of their generals They question and drive their military men and at key times they overrule their advice The generals may think they know how to win but the statesmen are the ones who see the big picture Abraham Lincoln Georges Clemenceau Winston Churchill and David Ben Gurion led four very different kinds of democracy under the most difficult circumstances imaginable They came from four very different backgrounds backwoods lawyer dueling French doctor rogue aristocrat and impoverished Jewish socialist Yet they faced similar challenges Each exhibited mastery of detail and fascination with technology All four were great learners who studied war as if it were their own profession and in many ways mastered it as well as did their generals All found themselves locked in conflict with military men All four triumphed The powerful lessons of this brilliant National Review book will touch and inspire anyone who faces intense adversity and is the perfect gift for history buffs of all backgrounds
