Financial Planning, Google eBook Warren McKeown, Mike Kerry, Marc Olynyk, Diana Beal, 2012-02-02 Financial Planning has been thoroughly revised to reflect the legislative and regulatory changes that affect the Australian financial planning industry. This new edition considers a number of reforms introduced as a consequence of the global financial crisis and the Henry Review on taxation reform. The text continues to present a comprehensive introduction to financial planning decisions, services and products, risk management and the importance of long term strategic financial planning and life long management. The text is the new edition of what was previously titled Personal Finance, which has been a market leading textbook in the area of financial planning for 10 years. As more and more Australians look to financial planners for information and guidance on investment opportunities and short term and long term financial planning goals, this new edition reflects the financial planning industry's need to ensure that its members are accredited and comply with industry recognised professional and ethical skills.
