## **Winds Of Change The End Of Empire In Africa:**

Winds of Change Trevor Royle, 1996 Combining historical narrative with the voices and memories of the people who lived through the period this text examines the last days of British rule in Africa It begins with the Gold Coast s race to freedom in 1957 and ends with the long conflict for Zimbabwe s independence in 1980 The British Press, Public Opinion and the End of Empire in Africa Rosalind Coffey, 2022-01-30 This book provides fresh insights into how the British press affected both British perceptions of decolonisation in Africa and British policy towards it during the wind of change period It also reveals for the first time the extent to which British newspaper coverage was of relevance to African and white settler readerships British newspapers informed the political strategies and civic cultures of African activists nationalists liberal whites in Africa the staunchest of white settler communities and the first governments of independent African states and their opponents The British press British public opinion and British journalists became etched into the lived experiences of the end of empire affecting Anglo African and Anglo settler relations to this day Arguing that the press cast a transnational web of influence over the decolonisation process in Africa the author explores the relationships between the British African and settler public and political spheres and highlights the mediating power of the British press during the late 1950s The book draws from a range of British newspapers official government documents newspaper archives interviews memoirs autobiographies and articles printed in African and white settler papers It will be of interest to historians of decolonisation Africa the media and the British Empire Ending Empire Hendrik Spruyt, 2005 At the dawn of the twentieth century imperial powers controlled most of the globe Within a few decades after World War II many of the great empires had dissolved and more recently multinational polities have similarly disbanded This process of reallocating patterns of authority from internal hierarchy to inter state relations proved far more contentious in some cases than in others While some governments exited the colonial era without becoming embroiled in lengthy conflicts others embarked on courses that drained their economies compelled huge sacrifices and caused domestic upheaval and revolution What explains these variations in territorial policy More specifically why do some governments have greater latitude to alter existing territorial arrangements whereas others are constrained in their room for maneuver In Ending Empire Hendrik Spruyt argues that the answer lies in the domestic institutional structures of the central governments Fragmented polities provide more opportunities for hard liners to veto concessions to nationalist and secessionist demands thus making violent conflict more likely Spruyt examines these dynamics in the democratic colonial empires of Britain France and the Netherlands He then turns to the authoritarian Portuguese empire and the break up of the Soviet Union Finally the author submits that this theory which speaks to the political dynamics of partition can be applied to other contested territories including those at the heart of the Arab Israeli conflict *New African* , 2003 **Borneo in the Cold War, 1950-1990** Keat Gin Ooi, 2019-08-02 Although by about 1950 both British Borneo including the protected sultanate of Brunei and Indonesian Borneo seemed settled under their different

regimes and well on the way to post war reconstruction and economic development the upheavals which affected Southeast and East Asia during the Cold War period also deeply affected Borneo Besides the impact of the Korean and Vietnam Wars and the Malayan Emergency and communist uprisings in other Southeast Asian states there was within Borneo the attempted communist takeover of Sarawak from the 1950s a failed coup d tat in Brunei in 1962 Sukarno s Konfrontasi confrontation with Malaysia and the horrific purge of Leftists and ethnic Chinese in the late 1960s This book details these momentous events and assesses their impact on Borneo and its people It is a sequel to the author s earlier books *The Japanese Occupation of Borneo 1941 1945* 2011 and *Post War Borneo 1945 1950 Nationalism Empire and State Building* 2013 collectively a trilogy

**The Wind of Change in Africa** Patrick Rooke,1968 *Britain, France and the Decolonization of Africa* Andrew W.M. Smith,Chris Jeppesen,2017-03-01 Looking at decolonization in the conditional tense this volume teases out the complex and uncertain ends of British and French empire in Africa during the period of late colonial shift after 1945 Rather than view decolonization as an inevitable process the contributors together explore the crucial historical moments in which change was negotiated compromises were made and debates were staged Three core themes guide the analysis development contingency and entanglement The chapters consider the ways in which decolonization was governed and moderated by concerns about development and profit A complementary focus on contingency allows deeper consideration of how colonial powers planned for colonial futures and how divergent voices greeted the end of empire Thinking about entanglements likewise stresses both the connections that existed between the British and French empires in Africa and those that endured beyond the formal transfer of power

**Sudan Focus** ,1996 **Modern Representations of Sub-Saharan Africa** Lori Maguire,Susan Ball,Sébastien Lefait,2020-11-11 This book examines how representations of African in the Anglophone West have changed in the post imperial age The period since the Second World War has seen profound changes in sub Saharan Africa notably because of decolonization the creation of independent nation states and the transformation of the relationships with the West Using a range of case studies from news media maps popular culture film and TV the contributions assess how narrative and counter narratives have developed and been received by their audiences in light of these changes Examining the overlapping areas between media representations and historical events this book will be of interest to students and scholars of African Studies and Media and Cultural Studies

**An International History of British Power, 1957-1970** Michael J. Turner, 2010 This book offers a detailed examination of Britain's role and influence in a pivotal period. The post war international order had more or less taken shape by the mid 1950s but much was still unsettled and in these circumstances Britain made the most of its opportunities even while accepting that it could not realistically expect to remain or ordinarily be treated as one of the Big Three world powers with the USA and Soviet Union. Obviously some adjustments were required in British priorities and methods in view of changing pressures and needs both at home and abroad but the continuing desire was to shore up Britain's position in those parts of the world that were of special importance to British prestige, power, strategy, prosperity and security. In April 1957 the defence minister in the Conservative government of the time Duncan Sandys emphasized to the House of Commons that whether we like it or not we cannot go on devoting such a large part of our resources and in particular of manpower to defence. Sandys and his colleagues tried to find a balance between commitments and resources. How did they fare? Gradually Britain did step back from some of its responsibilities overseas but defence expenditure remained high as did the overall costs of maintaining a global role. Denis Healey who served as secretary of state for defence in the Labour government of 1964-1970 later recalled that when I left office for the first time in its history Britain was spending more on education than

on defence Britain had to compromise It had to be content with a lesser role on the international stage But did this mean that all influence was lost Did Britain cease to be powerful Were its wishes and opinions no longer respected by others This book elucidates the motives behind key decisions discusses their far reaching consequences and explains why some options were taken and others were rejected It provides an integrated international history of the period between 1957 and 1970 Many treatments of world history and international relations since World War II are rather compartmentalized in nature usually along the lines of separate nation states and although this approach aids the organization and presentation of information it tends to hinder an overall appreciation of the international environment within which policy makers had to operate In order to understand why British leaders considered some options to be more attractive than others at vital moments we need to know more about the activities of the other great powers of the period Therefore this book treats British policymaking as one component of an evolving international order In addition this book balances and to some extent corrects those accounts that exaggerate or otherwise misrepresent the nature of Britain s decline as a world power Overly negative interpretations are challenged British leaders were not uninformed or unreflective or unsuccessful in managing decline and sustaining Britain s influence They did a better job than many historians have recognized The book is designed primarily for scholars and general readers who are interested in modern British history international relations post 1945 world history the end of the colonial empires and the history of the developing world
