**Chaim Weizmann** T. G Fraser,2010-09-07 The Arab Israeli conflict has been one of the most defining features of recent world history flaring up into open war fare yet again in Gaza at the end of 2008 and provoking large scale demonstrations in the streets of cities across the world The decision in 1919 by the Paris Peace Conference to award the Mandate for Palestine to Great Britain which had announced its commitment to the creation of a national home for the Jewish people in the Balfour Declaration two years previously sowed the seeds of this seemingly intractable problem yet when the Zionist leader Chaim Weizmann 1874 1952 spoke before the Conference on 27 February 1919 he would have appeared as only one of the many representatives of minor nationalities putting their case to the peacemakers and what is more one whose people had no territory of their own How a Jewish chemistry professor from an obscure part of Eastern Europe could find himself at the heart of international diplomacy and later become the first president of the State of Israel is one of the most fascinating stories of the Paris Peace Conference and its aftermath Ninety years after the Conference what Weizmann said and did there is an essential part of our understanding of how this small but critical part of the world evolved out of the deliberations

**Churchill** Robert Blake,Wm. Roger Louis,1996-02-29 Churchill was an extraordinary figure There has never been anyone quite like him and inevitably legends have accumulated How can he be treated both realistically and fairly after so much has been written about his controversial career by himself and others This is a fresh look at Churchill and his role in twentieth century history Each of the authors in this book is an authority on at least one aspect of Churchill s life The result is a fascinating interplay of ideas about his policies and motives Some of it is critical and unflattering Even the greatest of statesmen can make mistakes and misjudgements and Churchill was at the centre of the political scene for more than half a century Yet he emerges with both his integrity and his greatness intact His achievement seems as remarkable as ever The picture that is drawn by this lively and readable study is of an astonishing personality with some flaws but also with immense

strengths The book provides a fuller understanding of how Churchill came to be in A J P Taylor's words the saviour of his nation [Churchill and Ireland](#) Paul Bew, 2016-03-25 Winston Churchill spent his early childhood in Ireland and had close Irish relatives and was himself much involved in Irish political issues for a large part of his career He took Ireland very seriously and not only because of its significance in the Anglo American relationship Churchill in fact probably took Ireland more seriously than Ireland took Churchill Yet in the fifty years since Churchill's death there has not been a single major book on his relationship to Ireland It is the most neglected part of his legacy on both sides of the Irish Sea Distinguished historian of Ireland Paul Bew now at long last puts this right Churchill and Ireland tells the full story of Churchill's lifelong engagement with Ireland and the Irish from his early years as a child in Dublin through his central role in the Home Rule crisis of 1912-14 and in the war leading up to the Anglo Irish Treaty of 1922 to his bitter disappointment at Irish neutrality in the Second World War and gradual rapprochement with his old enemy Eamon de Valera towards the end of his life As this long overdue book reminds us Churchill learnt his earliest rudimentary political lessons in Ireland It was the first piece in the Churchill jigsaw and in some respects the last **Asia Looks Seaward** Toshi Yoshihara, James R. Holmes, 2007-11-30 Asia is headed toward an uncertain and potentially volatile future in the maritime arena The two rising Asian powers China and India dependent as they are on seaborne commerce for their economic well being have clearly set their eyes on the high seas Yoshihara and Holmes offer a stark warning that many strategists in Beijing and New Delhi appear spellbound by the more militant visions of sea power Indeed both powers appear poised to develop the capacity to control the sea lanes through which the bulk of their commerce flows If they enter the nautical environment with such a martial mindset Asia could very well fall victim to regional rivalries that give rise to a vicious cycle of competition Yoshihara and Holmes provide the first examination of the simultaneous rise of two naval powers and the potential impact that such an oceanic reconfiguration of power in Asia could have on long term regional stability Their study analyzes the maritime interests and strategies of the littoral states in Asia as they prepare for the expected reordering of nautical affairs This long overdue assessment revisits underlying assumptions that have prevailed among strategy makers and provides a concrete policy framework for reducing the risk of confrontation in Asian waters **Winston S. Churchill,Winston Spencer (Sir) Churchill,1977 *Environmental Imaginaries of the Middle East and North Africa* Diana K. Davis,Edmund Burke,Edmund Burke (III),2011-12-20 The landscapes of the Middle East have captured our imaginations throughout history Images of endless golden dunes camel caravans isolated desert oases and rivers lined with palm trees have often framed written and visual representations of the region Embedded in these portrayals is the common belief that the environment in most places has been deforested and desertified by centuries of misuse It is precisely such orientalist environmental imaginaries increasingly undermined by contemporary ecological data that the eleven authors in this volume question This is the first volume to critically examine culturally constructed views of the environmental history of the Middle East and suggest that they have often benefitted elites at the expense of the ecologies and the peoples of the region The contributors expose many of the questionable policies and practices born of these environmental imaginaries and related histories that have been utilized in the region since the colonial period They further reveal how power in the form of development programs notions of nationalism and hydrological maps for instance relates to environmental knowledge production
