Sociology In Its Place Runciman, Walter Garrison Runciman, 2010-06-10 This book examines how sociology belongs with history and anthropology Sociology in its place, and other essays Walter Garrison Runciman, 1970 *Irony of Theology*

and the Nature of Religious Thought Donald Wiebe, 1990-12-01 In a careful re evaluation of the works of L vy Bruhl Wiebe establishes the coherence of L vy Bruhl s classic distinction between primitive or mythopoeic and scientific thought maintaining that religious thinking is mythopoeic in nature while theology which thinks about religion is related to modern Western scientific thinking The pre Socratic philosophers Wiebe shows developed a form of rational thought radically different from the religious mythopoeic thought that preceded it Although Plato was concerned with recovery of the pre philosophic wisdom of ancient Greece he attempted this within a rational philosophic structure Wiebe argues that Christian thought originally mythopoeic changed rapidly under the influence of Hellenistic culture and that the Platonization of Christianity introduced an element of philosophic thinking which would eventually undermine its mythopoeic essence In clarifying the nature of religious thought and its relation to religion Wiebe provides a sound basis for the development of a general theory of religion While of particular interest to philosophers theologians and students and scholars of the study of religion Wiebe s study draws upon sources as diverse as philosophy history anthropology and sociology and will therefore interest anyone involved in these disciplines as well *Sociological Ambivalence and Other Essays* Robert King
