Lidin,1999 Toward the end of his life the Japanese Confucian thinker Ogyu Sorai 1666 1728 wrote a memorandum entitled Seidan Political Discourse about the political and economic situation in Japan probably at the request of the authorities and possibly the shogun Yoshimune himself It is an extensive treatise which touches practically all fields of life around 1725 1727 and it is therefore a goldmine for anyone who wishes to acquaint himself with Japanese history in mid Tokugawa times The work was written in secrecy and it was therefore not known even by his students It began to circulate in handwritten copies in the 1750s Today it is a central work and a monument in the so-called keizaigaku genre of Japanese political economic literature and is found in every collection of Tokugawa intellectual literature and referred to by all scholars who deal with Tokugawa history The present work includes a full translation of the Seidan **Values, Identity, and Equality in Eighteenth- and Nineteenth-Century Japan** ,2015-09-17 The chapters in this volume variously challenge a number of long standing assumptions regarding eighteenth and nineteenth century Japanese society and especially that society's values structure and hierarchy the practical limits of state authority and the emergence of individual and collective identity By interrogating the concept of equality on both sides of the 1868 divide the volume extends this discussion beyond the late Tokugawa period into the early Meiji and even into the present An Epilogue examines some of the historiographical issues that form a background to this enquiry Taken together the chapters offer answers and perspectives that are highly original and should prove stimulating to all those interested in early modern Japanese cultural intellectual and social history Contributors include Daniel Botsman W Puck Brecher Gideon Fujiwara Eiko Ikegami Jun ichi Isomae James E Ketelaar Yasunori Kojima Peter Nosco Naoki Sakai Gregory Smits M William Steele and Anne Walthall Moral and Spiritual Cultivation in Japanese Neo-Confucianism Mary Evelyn Tucker,1989-01-01 Kaibara Ekken 1630 1714 was the focal Neo Confucian thinker of the early Tokagawa period He established the importance of Neo Confucianism in Japan at a time when Buddhism had long been the dominant religious

The Japan Foundation Newsletter, 1996 **Confucian Spirituality** Weiming Tu, Mary Evelyn Tucker, 2003 One of the most important works on Confucian religion ethics and spirituality The vibrant nature of the 2500 year old Confucian tradition is celebrated here Insights into this spiritual richness regarding topics such as self cultivation education family relationships social commitment and political engagement are now available for the first time in English **National Union Catalog**, Includes entries for maps and atlases **Overseas Japanese Studies Institutions**, 1984 Library of Congress Catalogs Library of Congress, 1980 **China in the Tokugawa World** Marius B. Jansen, 2000 This engaging book

challenges the traditional notion that Japan was an isolated nation cut off from the outside world in the early modern era This familiar story of seclusion argues master historian Marius B Jansen results from viewing the period solely in terms of Japan s ties with the West at the expense of its relationship with closer Asian neighbors Taking as his focus the port of Nagasaki and its thriving trade with China in the sixteenth through the nineteenth centuries Jansen not only corrects this misperception but offers an important analysis of the impact of the China trade on Japan s cultural economic and political life Creating a vivid portrait of a city that lived on and for foreign trade the author details Nagasaki s pivotal role in importing luxury goods for a growing Japanese market whose elite wanted more of everything that ships from China could bring Silk sugar and ginseng were among the cargoes brought to Nagasaki as well as books that by the late Tokugawa period signaled the dangers of Western expansionism The junks from China brought people as well as goods and the author provides clear evidence of the influence of Chinese expatriates and visitors on Japanese religion law and art Japan s intellectuals prided themselves on their full participation in the cultural milieu of the continental mainland and for them China represented an ideal land of sages and tranquility But gradually China came to represent instead a metaphor for the other as Japan s quest for a national identity intensified Among the Japanese a new image of their nation was beginning to emerge a Japan superior to Asia in general and to China in particular
