Otherness in Hispanic Culture Teresa Fernandez Ulloa, 2014-06-26 This book addresses contemporary discourses on a wide variety of topics related to the ideological and epistemological changes of the 19th 20th and 21st centuries and the ways in which they have shaped the Spanish language and cultural manifestations in both Spain and Hispanic America The majority of the chapters are concerned with otherness in its various dimensions the alien Other foreign immigrant ethnically different disempowered female or minor as well as the Other of different sexual orientation and or ideology Following Octavio Paz otherness is expressed as the attempt to find the lost object of desire the frustrating endeavour of the androgynous Plato wishing to embrace the other half of Zeus who in his wrath tore off from him Otherness compels human beings to search for the complement from which they were severed Thus a male joins a female his other half the only half that not only fills him but which allows him to return to the unity and reconciliation which is restored in its own perfection formerly altered by divine will As a result of this transformation one can annul the distance that keeps us away from that which not being our own turns into a source of anguish The clashing diversity of all things requires the human predisposition to accept that which is different Such a predisposition is an expression of epistemological ethical and political aperture The disposition to co exist with the different is imagined in the de anthropocentricization of the bonds with all living realms And otherness is in some way the reflection of sameness mismidad The other is closely related to the self because the vision of the other implies a reflection about the self it implies consciously or not a relationship with the self These topics are addressed in this book from an interdisciplinary perspective encompassing arts humanities and social sciences

Los dedos cortados Tabet, Paola, 2014-08-13 La antrop loga italiana Paola Tabet es una de las te ricas feministas m s apasionantes innovadoras y audaces de los ltimos decenios Este libro es una s ntesis de sus principales trabajos en el que se despliega su an lisis

materialista de las relaciones sociales en torno al sexo En este volumen se ofrece una crítica radical de la naturalización de la procreación y de la división sexual del trabajo y desarrolla además su concepto de continuo del intercambio económico sexual que se ha vuelto central en el campo de los estudios feministas El libro está dividido en tres grandes capítulos En el primero Tabet muestra que generalmente la sexualidad entre mujeres y hombres no es un libre intercambio sino una compensación masculina para una prestación femenina un pago que puede tomar las más variadas formas: estatus social, dinero o dividida a cambio de una sexualidad transformada en servicio El segundo capítulo cuestiona la naturalización de la procreación y su vínculo con la sexualidad humana cuya especificidad consiste en que puede estar enteramente separada de la procreación Entonces por qué se obliga a las mujeres a pasar de una potencialidad biológica a una procreación impuesta y generalmente maximizada En el tercer capítulo Tabet analiza un aspecto central de la división sexual del trabajo: contrario a lo que comúnmente se afirma en la antropología, esta división no depende de la posibilidad de acceder a las herramientas cualquiera que sea el grado de desarrollo tecnológico de las sociedades; las mujeres sufren un subequipamiento crítico frente a los hombres

La ciudad de las damas Christine de Pizan, 2025-05-29 En un mundo dominado por prejuicios y voces masculinas La ciudad de las damas se presenta como una obra revolucionaria que da voz a la sabiduría, la fortaleza y la dignidad de las mujeres a lo largo de la historia A través de un relato cargado de simbolismo y profundidad la autora construye una ciudad ideal donde la mujer es reconocida por sus virtudes, su inteligencia y su valor Este libro invita a descubrir un espacio literario: un refugio de ideas donde se desafían los estereotipos y se reivindica el papel femenino en la cultura, la sociedad y el pensamiento Una lectura esencial para quienes buscan comprender la historia desde una perspectiva diferente y para quienes desean celebrar el legado y la importancia de las mujeres en todas las épocas

La mujer según los diferentes aspectos de su espiritualidad Edmundo González-Blanco, 1930 El propósito del autor con este libro es el de convencer a las exaltadas feministas de que sus reivindicaciones igualitarias son peligrosos ensueños y de que al defender lo que ellas llaman sus libertades y derechos no hacen más que entregarse a violentas elucubraciones acerca de males imaginarios y de fantasías de fantasías
