**Ecofeminism as Politics**, Ariel Salleh, 1997-11. This is an exploration of the philosophical and political challenge of ecofeminism. It shows how the ecology movement has been held back by conceptual confusion over the implications of gender difference while much that passes in the name of feminism is actually an obstacle to ecological change and global democracy. The author argues that ecofeminism reaches beyond contemporary social movements, being a synthesis of four revolutions: in ecology, feminism, socialism, and post-colonial struggle. Informed by a critical postmodern reading of the Marxist tradition, Salleh's ecofeminism integrates discourses on science, the body, culture, nature, and political economy. The book opens with a short history of ecofeminism. Part Two establishes the basis for its epistemological challenge while the

third part consists of ecofeminist deconstructions of deep ecology social ecology ecosocialism and postmodern feminism In the final section Salleh suggests that a powerful way forward can be found in commonalities between ecofeminist and indigenous struggles The Summary ,1906
