The Cambridge Companion to African American Women's Literature Angelyn Mitchell, Danille K. Taylor, 2009-04-30 The Cambridge Companion to African American Women's Literature covers a period dating back to the eighteenth century. These specially commissioned essays highlight the artistry, complexity, and diversity of a literary tradition that ranges from Lucy Terry to Toni Morrison. A wide range of topics are addressed, from the Harlem Renaissance to the Black Arts Movement and from the performing arts to popular fiction. Together, the essays provide an invaluable guide to a rich, complex tradition of women writers in conversation with each other as they critique American society and influence American letters. Accessible and vibrant with the needs of undergraduate students in mind, this Companion will be of great interest to anybody who wishes to gain a deeper understanding of this important and vital area of American literature.

Global Families Catherine Ceniza Choy, 2013-10-11 In the last fifty years, transnational adoption, specifically the adoption of Asian children, has exploded in popularity as an alternative path to family making. Despite the cultural acceptance of this practice, surprisingly little attention has been paid to the factors that allowed Asian international adoption to flourish. In *Global Families*, Catherine Ceniza Choy unearths the little-known historical origins of Asian international adoption in the United States. Beginning with the post-World War II presence of the U.S. military in Asia, she reveals how mixed-race children, born of Japanese, Korean, and Vietnamese women and U.S. servicemen, comprised one of the earliest groups of adoptive children. Based on extensive archival research, *Global Families* moves beyond one-dimensional portrayals of Asian international adoption as either a progressive form of U.S. multiculturalism or as an exploitative form of cultural and economic imperialism. Rather, Choy acknowledges the complexity of the phenomenon, illuminating both its radical possibilities of a world united across national, cultural, and racial divides through family formation and its strong potential for reinforcing the very racial and cultural hierarchies it sought to challenge.
