*The Physician's Guide to Investing* Robert M. Doroghazi, Dan Wright French, 2007-11-03 I met Bob Doroghazi when he dropped the first draft of his manuscript of *The Physician's Guide to Investing A Practical Approach to Building Wealth* at my office I will have to admit I was a bit skeptical a physician writing a book on investments During that first meeting with Bob it became evident that he had been a successful physician and a successful investor so I agreed to take a look at the book I was in for a pleasant surprise Bob's manuscript was easy to read and had specific advice useful to physicians interspersed with lots of practical tidbits for any investor Having written three college level finance and investment texts I was excited to be in on a project aimed at offering practical investment advice to a more general yet specialized audience I had high expectations for the book and am pleased to say that I believe Bob has delivered a book that every physician interested in building wealth and protecting assets should read Bob is a straight shooter he tells it like he sees it in his book Some doctors might be indignant on reading his statements such as Physicians sometimes have no idea of their limitations This type of arrogance and ego can result in investing disaster

However if you do have these limitations and most professionals even college professors do then reading Bob s book will help you recognize situations in which they can lead to poor investment decisions      **The Physician's Guide to Investing** Robert Doroghazi,2009-07-25 In comments that were unfortunately prescient Dr Doroghazi said in the first edition the author feels we are currently experiencing a real estate bubble And in anticipation of the credit crisis he said banks are far too lenient in their lending practices the problem is that bankers are often not lending their own money considering that a significant percentages of mortgages are sold to Fannie Mae FNM and Freddie Mac FRE the problem is now actually everyone s This new and expanded edition provides commonsense advice that all investors physicians and non physicians will find profitable in these difficult times Learn about the power of thrift the magnificence of compound interest the malevolence of debt and the perniciousness of fees See how to pay off the mortgage by age 45 fund your children s education and retire at a reasonable age rather than continue to work because you must      *The Motley Fool Money Guide* Selena Maranjian,2003
