The Montessori method of education was developed by Italian physician Maria Montessori. Emphasizing independence, it views children as naturally eager for knowledge and capable of initiating learning in a sufficiently supportive and well prepared learning environment. It discourages some conventional measures of achievement such as grades and tests. Montessori developed her theories in the early 1900s through scientific experimentation with her students. The method has since been used in many parts of the world in public and private schools alike. This Montessori workbook works great in a Montessori environment as well as in a regular home school. This unique workbook is designed to keep your little one's absorbent mind engaged. Perfect for preschool, pre k, and kindergarten ages 3-7. No previous Montessori experience required. Realistic pictures have been used instead of cartoons to promote learning about the beauty of the real world. Bright full color to appeal.
